MQME is an emerging company established in 2003 by previously disadvantaged citizens of this country, it is 100% black-owned. Our BEE rating is level three. We have a strong passion to create a viable future if given a chance to participate in the economy of the country.

Being a “developing” company, we are able to supply solutions for our clients at very competitive rates. We have combined skills in various areas which makes using our company a very cost effective solution. We are focused on excellence and realize that the current economic status requires perfection first time! We are motivated about the possibility of “making a difference”.

Mission

To be loyal to our client, and to be counted amongst the best contractors within the country. To give the best service to our clients in the market

Vision

To alleviate the rate of unemployment and participate in the economy of the country
To be competitive with other companies in order to grow and develop as a business
